

Travel Converter

for appliances up to 85 watts

Converters change the power going to your appliance. Adapters change the plug shape. The Travel Converter for appliances up to 85 watts lets you use U.S. 110/120-volt appliances in 220/240-volt outlets worldwide. It includes a built-in Schuko (European) Adapter plug that fits many outlets. For use in more countries, separate Adapters are needed.

USING THIS CONVERTER

Use with small appliances up to 85 watts, including most electric shavers, battery chargers and curling irons.

1. Insert the Converter into the 220/240-volt foreign power outlet. Use with an Adapter (not included) if necessary.
2. Plug your appliance into the standard plug outlet in the Converter and use your appliance as usual.

Note: Your appliance will be grounded if used with a compatible Schuko (European) wall outlet. If used with an Adapter, your Converter will work, but may not be grounded.

WARNING

- Unplug the unit from power outlet after each use
- Always check your appliance's wattage requirement and your destination's voltage standard to ensure compatibility
- Converters and Adapters should only be used with compatible appliances
- Do not use Converter or Adapter if it isn't working properly, has been damaged or dropped in water
